

STRATEGIC PARTNERSHIP PROGRAM

Aerospace | Food & Beverage | Industrial & Commercial | Manufacturing | Pharmaceutical | Warehouse & Distribution

THE ULTIMATE PROTECTION DURING REROOFING

Reroofing has its challenges, but dust and debris falling inside the building should not be one of them. You can protect your facility from contaminants that result from reroofing by having TuffWrap® install a suspended cover system using SmartSeam®.

SmartSeam® Suspended Cover and proprietary installation is the ONLY IBC® Code Compliant and FM Approved System on the market today.

- ✓ Eliminates costly production shutdowns
- ✓ Protects employees and customers
- ✓ Avoids product recalls
- ✓ Prevents equipment and inventory damage

Our product compliance standards benefit roofing contractors, general contractors, and companies mitigate the risk(s) and liabilities of protecting people, products, and property during reroofing and construction projects.

SmartSeam® temporary ceiling barrier meets **EC 043-2020** document of IBC six areas of code compliance requirements, NFPA 13 and FM 4652 approved.

Safeguard and Keep Facilities Operational During Reroofing with a SmartSeam® Temporary Ceiling Barrier

TuffWrap® Installations is the North American leader in innovative temporary dust, debris, and construction containment solutions, keeping facilities operational, providing protection, and helping mitigate your exposure to liability.

The TuffWrap Difference

- **Communication** – We will give you a budget, if it makes sense, we schedule an onsite estimate.
- **Flexible Scheduling** – We work the hours that are best for your company, evenings and weekends are no extra charge.
- **Safety is a Top Priority** – Our Safety Program meets or exceeds industry qualifications.
- **No Subcontractors** – Our crew members are all full-time employees and OSHA 30 trained.
- **Customized Approach** – Our Project Management Team is committed to client relationships and meeting the specific requirements of each assignment.
