

TuffWrap®

FRAMELESS WALLS®

KEEP YOUR FACILITY OPEN DURING CONSTRUCTION

TuffWrap Frameless Walls® provide flexible, professional containment designed to keep facilities active while controlling dust and debris during construction

A BETTER WAY TO SEPARATE CONSTRUCTION FROM PRODUCTION

FRAMELESS INSTALLATION
No traditional structural framing required.

CUSTOM FIT
Adapts to equipment, layouts, and facility conditions.

DUST & DEBRIS CONTROL
Keeps construction contaminants out of occupied spaces.

PROFESSIONAL INSTALLATION
Clean, organized appearance for customer facing environments.

FLEXIBLE PROTECTION, ACTIVE FACILITIES

Unlike bulky, slow-to-install stud walls or modular wall systems that struggle around equipment and building conditions. Our Frameless Walls® offer a flexible alternative.

PROTECTION WITHOUT PERMANENCE

NO WOOD OR METAL STUD FRAMING
Creates a continuous floor-to-roof-deck barrier without bulky temporary structures.

ENGINEERED MATERIALS
Reinforced, four-ply polyethylene built for durability and tear resistance.

BUILT FOR ACTIVE FACILITIES
Antimicrobial and antistatic options available for cleanliness-critical environments.

INTEGRATED ACCESS
Pocket and Zipper Doors provide safe, controlled access.

ONE SOLUTION. MANY POSSIBILITIES.

FRAMELESS WALLS® + SMARTSEAM®
Total Enclosure for Fully Contained Areas.

FRAMELESS WALLS® + TUFFPANEL
Hybrid Walls add protection

FRAMELESS WALLS® + CONSTRUCTION DOORS
Convenient access, intact containment.

From Construction Zone to Customer Area

Frameless Walls® separate construction from customers, employees, products, equipment, inventory, and active operations — keeping facility operations clean and undisrupted.
